Data & AI Consultant | ESCP × ENSEA | Bridging Tech & Strategy | Available April 2027

EDUCATION

ESCP Business School

MSc in Strategy & Organisation Consulting | Paris, France | 2026 – 2027

- Corporate Strategy, Digital Transformation, Data, AI, Change Management and Consulting Workshops.

ENSEA (Ecole Nationale Supérieure de l'Électronique et de ses Applications)

Master's Degree in Engineering – Major in Artificial Intelligence | Cergy, France | 2023 – 2026

- Machine Learning, Deep Learning, Advanced Statistics, Probability, IT Management.
- Academic Standing: Ranked 6th out of 27 in AI specialization.

VILNIUS TECH (Vilnius Gediminas Technical University)

Vilnius, Lithuania | Academic Exchange | 2025

- Focus on Internet of Things (IoT) & Computer Science.
- Academic Standing: A, Curriculum fully completed in English.

Lycée Jacques Decour

*Classe Préparatoire aux Grandes Écoles (CPGE) – MPSI / PSI** | Paris, France | 2021 – 2023

- Intensive 2-year program specializing in advanced Mathematics, Physics and Engineering Science.

PROFESSIONAL EXPERIENCE

Radès Consulting

Data & AI Consultant Intern | Paris, France | March 2026 – Present

- **Strategic Audit & Delivery:** Audited the 1TB+ Elasticsearch architecture of a sales CRM for a leading IT consulting firm; delivered strategic recommendations and engineered the implementation within a 3-week sprint.
- **AI Strategy:** Benchmarked MongoDB vs. Elasticsearch for AI integration at a European gas operator, delivering a no-code vs. engineering-intensive decision framework.
- **GenAI Engineering:** Architected a RAG-based GenAI agent (LangChain, MCP) querying a historical incident knowledge base to auto-generate resolution reports and trigger automated alerts, directly reducing diagnostic time for technical operations teams and accelerating incident resolution.
- **SRE Infrastructure & Automation:** Engineered an observability PoC from requirements to delivery, monitoring 27 applications on a replicated tier-1 banking infrastructure, cutting incident resolution time from 3+ hours to under 5 minutes across 50M daily logs, contributing to a commercial win with a major French bank.

PROJECTS & LEADERSHIP EXPERIENCE

AI Digital Twin (Personal Project) | www.anisafrou.fr

Architected and deployed a RAG-based AI agent (LangChain) enabling recruiters to query my professional background and technical projects in natural language.

Academia | *Mathematics & Computer Science Tutor* | 2023 – Present

Focused on explaining and simplifying technical concepts in a clear, accessible way.

ENSEA | *Data Officer (Part-time)* | January-February 2026

Advised the HR and Marketing Directors on data organization and led the end-to-end migration into the corporate CRM.

SKILLS, LANGUAGES & INTERESTS
